

## CASE STUDY # 111

**Company / User:** The **Wooster Brush Company, Wooster, OH**

---

### **The Challenge:**

The Wooster Brush Company was founded in 1851 making it one of the oldest companies in America. Their IT department came to us because they were getting tired of replacing IPDS chips on their printer fleet and were looking for a better, more cost effective solution.

---

**The Solution:**      **IPDSXpress™**

IPDSXpress was chosen over four rival solutions because IPDSXpress was viewed as the superior product. Because of the large amount of printers involved, extensive testing over a two month period was required and the support department did an outstanding job with the install. Wooster Brush is planning on adding the PDF option sometime later this year and is a very satisfied client.

Please contact us for more information regarding our IPDS gateway products: IPDSXpress, IPDSServe and IPDSServe/PDF.
