

Resident Fonts in IPDSXpress

1 IBM 4028 compatibility set

All of the following are fixed size (non-scalable) bitmap fonts. The bitmap fonts included in the 4028 Compatibility Font Set support the 300 dpi bitmap fonts in the 4028 and 43xx printer series. Most of these fonts support the Latin 1 languages

IBM 4028 Compatibility Font Set. 300 dpi bitmaps (Latin 1)

2 IBM Core Interchange Scalable Font Set

These are outline (scalable) fonts. When using one of these fonts, a font size must be specified. The typefaces defined for the IBM Core Set font provide support for the following groups of languages and are supported in the printer: Latin 1 including DCF, Latin 2, Latin 3, Latin 4 and Latin 5, Cyrillic, Baltic, Greek and symbols. Symbols are provided in medium and bold typefaces only. These fonts are supported through country or language extended code page.

IBM Core Interchange Resident Scalable Font Set

fgid	typeface name
